1 of 1 review helpful Perfect historical action entertainment with some great characters By M Dwyer I m a real fan of the Sharpe s novels and the character so I m biased So far they ve all turned out to be entertaining and informative historical fiction well constructed and developed by the author They do cover different historical events periods but I m likely to make only this one general review since it s of To stem the Napoleonic tide Sharpe must capture a fortress mdash where his wife and infant daughter are trapped mdash while protecting himself from a fellow officer determined to destroy him
