3 of 3 review helpful Great book As informative as it is entertaining By Nen I love this book Despite the 1000 pages I have read it twice and will probably read it again Kenneth Roberts is such a fabulous historian and what he did with this book is truly remarkable As a history major I can honestly say that until I read this book I do not believe I had even begun to glimpse what really happened during the American In this novel Kenneth Roberts portrays a very different side to the story of the American Revolution that of the loyalists those colonists who supported the British monarchy Spanning the years from 1775 to 1783 ldquo Oliver Wiswell rdquo traces the adventures of a Yale student who is deeply loyal to the established government of the colonies This wonderfully far ranging novel is packed with battles sudden flights escapes intrigue massacres romance
