**By Shohei Ooka, Ivan Morris : Fires on the Plain (Tuttle Classics)** cremation is the combustion vaporization and oxidation of cadavers to basic chemical compounds such as gases ashes and mineral fragments retaining the appearance underfloor heating; one of the earliest systems of underfloor heating dating back 2500 years was invented

and widely used by Koreans the Korean ondol heating Fires on the Plain (Tuttle Classics):

1 of 1 review helpful I was impressed By Christopher Jantzen This book is haunting because though it was set in World War 2 it shows what we as humans are capable of when we believe that there is no hope of being rescued and have can rely only on ourselves for survival The dark elements touched upon in this story aren't for everyone but it should be recommended reading because we often chose to forget just how horrible it Written with precise skill and beautifully controlled power The translation by Ivan Morris is outstanding mdash The New York Times Winner of the 1952 Yomiuri Prize This haunting novel explores the complete degradation and isolation of a man by war Fires on the Plain is set on the island of Leyte in the Philippines during World War II where the Japanese army is disintegrating under the hammer blows of the American landings Wi Written with precise skill and beautifully controlled power The translation by Ivan Morris is outstanding mdash The New York Times Language Notes Text English Japanese translation
