1 of 1 review helpful Not Quite There By Customer My problem with Kent s writing is how often phrases are repeated both chapter to chapter and book to book For example the blood running from the scuppers of a ship make it look as if the ship itself were bleeding in more than one battle scene I also don t quite find myself convinced that Bolitho in real life would be as likely to have men willing to die for Falmouth September 1803 As Bolitho faces the grim reality of war at close quarters he will be called upon to anticipate the strategies of the French fleet But the conflict has also taken on a personal note reviving his vendetta with the French Admiral Jobert who once commanded the Argonaute
