**By T S Ransdell : The Last Marine (Volume 1)** an ocean from ancient greek transc okeans the sea of classical antiquity is a body of saline water that composes much of a planets hydrosphere purevolume is the place for rising artists to host their mp3s and get exposure we showcase unsigned artists independent labels and major label artists

visitors The Last Marine (Volume 1):

6 of 6 review helpful A Grade A Read By L Douglas Hogan Another class A author straight out of the gate What a great first impression With a title like The Last Marine you expect a story that can only be told by a Marine Corps veteran one full of cliché one liners military jargon and grunt talk I wasn't disappointed Ransdell delivered a balanced story with plenty of action plot and character development twists The Last Marine Book One is author T S Ransdell's vision of a future American dark age where all civilians serve at the pleasure of the government In this dystopian tale Joel Levine a journalist historian for the government is given the task of creating a history to remind people why the bygone American warrior culture was dangerous to them To do so Levine is given Government VIP status to interview the last known veteran of the disbanded United States Marine
